

EDEN HOUSE

SAINT-BARTHÉLEMY
FRENCH WEST INDIES

THE HOUSE.

Overlooking the the sea at Marigot Bay, Eden House has stunning ocean views and direct access to the waters of Marigot's marine nature reserve. European architect-designed, Eden House's dramatically clean modern lines, realised in dove grey and accented by splashes of stunning colour, create an inspiring sensation of space, peace and calm. Tropical palm-filled gardens surround the house and descend to the coconut grove at the water's edge.

THE BEDROOMS.

The three bedrooms, each with its own colour theme and with custom-made linens, have en-suite Balinese pebble-lined bathrooms. Each is equipped with fridge, TV, DVD and CD.

THE SPACE.

The enormous living area creates a unity of inside and outside space. Rich in natural materials, using bleached teak, lava stone and cembonite, the space is complemented by Italian furniture and state of the art equipment. Huge decks on three levels have spectacular views, with the main deck surrounding the 13m infinity pool.
